## Languages

As a third-year student, focusing on preparing for the dissertation and thesis for the fourth year of current studies, with a strong focus on data science and software engineering. Eager to launch a career in these fields, leveraging a passion for learning and creativity. Actively seeking an internship with a company that values growth and skill development. As a believer in ambition and commitment, this allows for making impactful contributions. With fresh perspectives, a strong work ethic, and a curiosity-driven approach, fueled with excitement to collaborate with the team.

## Hair Stylist

Discovered a passion for natural hair care, motivated by past experience, which lead to uncovering an unknown interest in natural hair care. Braiding hair allows me to be create and gentle, as most local beauty salons do not cater to naturally curly African hair. Hair styling is a hobby that I enjoy and have a keen interest in improving my techniques and skills in.

## Interests
